

# Risk Management in Construction and Real Estate Management

<b>1</b>	<b>RISK-MANAGEMENT – MODELS AND SCENARIOS</b>	<b>1-1</b>
1.1	RISK MANAGEMENT AND MODELING	1-1
1.2	ESTIMATING SCENARIOS BASED ON COMBINATORICS	1-2
<b>2</b>	<b>DEFINITIONS AND STATISTICS</b>	<b>2-3</b>
2.1	DEFINITIONS	2-3
2.2	PHASES IN RISK MANAGEMENT	2-3
2.2.1	<i>First Phase: Identification and Analysis of Risks</i>	2-3
2.2.2	<i>Second Phase: Evaluation and Classification of Risks</i>	2-4
2.2.3	<i>Third Phase: Activities of Risk Control</i>	2-5
2.2.4	<i>Fourth Phase: Risk Control/Reporting</i>	2-6
2.3	RISK MANAGEMENT SYSTEM	2-6
2.3.1	<i>Integration of Risk Management in the Company Structure</i>	2-6
2.3.2	<i>Risk Strategy</i>	2-7
2.3.3	<i>Organization of Risk Management</i>	2-7
2.3.4	<i>Risk Culture</i>	2-8
2.4	STATISTICS – STOCHASTICS	2-9
2.4.1	<i>Excursus: Reasons for using a distribution</i>	2-11
2.4.2	<i>BETA-Distribution</i>	2-11
2.4.3	<i>Mean values vs. distribution</i>	2-12
<b>3</b>	<b>ACTIVITY BASED RISK MANAGEMENT</b>	<b>3-13</b>
3.1	EXPONENTIAL DISTRIBUTION	3-14
3.2	CUMULATING CASES FOR RISK BASED DECISIONS	3-16
<b>4</b>	<b>DEFICIENCIES OF CLASSICAL RISK MANAGEMENT</b>	<b>4-17</b>
	Example: BKI-Tables	4-20
	Example: Comparability of Projects from Experience	4-21
<b>5</b>	<b>RISK MANAGEMENT IN PROJECT BUSINESS</b>	<b>5-22</b>
5.1	TYPICAL RISKS IN THE PROJECT BUSINESS	5-22
	Example: Legacy Risks	5-22
	Example: Subway U4 Harborscity Hamburg	5-23
5.2	ACTIVITY BASED RISK MANAGEMENT	5-25
5.3	EXCURSION: TRANSFERRING TASKS AND RISKS	5-31
<b>6</b>	<b>DEVELOPMENT OF KNOWLEDGE</b>	<b>6-32</b>
6.1	CLASSICAL SUPPORT	6-32
6.2	KNOWLEDGE MANAGEMENT	6-32
6.3	DEVELOPMENT OF RISKS ON THE TIME AXIS - MANIFESTATION AND LEVEL OF AWARENESS	6-32
6.4	DEVELOPMENT OF THE AWARENESS OF RISK	6-34
6.4.1	<i>Linear Approach</i>	6-35
6.4.2	<i>Potential Approach</i>	6-38
6.4.3	<i>Alternative Approach</i>	6-39
<b>7</b>	<b>FAULT TREE ANALYSIS (DIN 25424)</b>	<b>7-41</b>

7.1	RISK DEVELOPMENT/PROPAGATION IN NONLINEAR SYSTEMS VS. SIMPLE LINEAR SYSTEMS:	7-41
7.2	INTERDEPENDENCIES OF FAULTS IN TREE-STRUCTURES	7-42
7.2.1	<i>Trees as simple structures</i>	7-42
7.2.2	<i>Elements for Construction of Fault-Trees</i>	7-45
7.2.2.1	Events	7-45
7.2.2.2	Gates	7-45
7.3	EXAMPLE OF A FAULT TREE	7-46
<b>8</b>	<b>STATE DIAGRAMS</b>	<b>8-47</b>
8.1	SERVICE STATION FOR CONSTRUCTION TRUCKS (COMPUTATION EXAMPLE)	8-48
8.2	TIME INDEPENDENT STATIONARY SITUATION	8-49
8.3	OBTAINABLE DISTRIBUTIONS	8-50
<b>9</b>	<b>THEORY OF CATASTROPHES</b>	<b>9-53</b>
9.1	EQUILIBRIUM	9-54
9.1.1	<i>Stable System</i>	9-54
9.1.2	<i>Unstable Systems</i>	9-54
9.1.3	<i>Indifferent Systems</i>	9-55
9.1.4	<i>Metastable Systems</i>	9-55
9.2	POTENTIALS	9-56
9.3	SIMULATION OF BEHAVIOR	9-56
9.3.1	<i>Equilibrium of a "stable investment"</i>	9-57
9.3.2	<i>Market and Equilibrium Price</i>	9-61
<b>10</b>	<b>RISK DEVELOPMENT IN PLAIN AND COMPLEX STRUCTURES</b>	<b>10-64</b>
10.1	COMPLEX AND INTERACTIVE STRUCTURES	10-65
10.1.1	<i>Parameters for cComplex Structures</i>	10-65
10.1.2	<i>Complexity</i>	10-65
10.2	COMPOSITION OF RISK WITHIN A NETWORK	10-67
10.3	RISK PROPAGATION THROUGH A COMPLEX NETWORK	10-68
10.4	INFLUENCING AND CONTROLLING RISKS IN COMPLEX NETWORKS	10-71
<b>11</b>	<b>CONTROLLING THEORY</b>	<b>11-75</b>
11.1	EQUILIBRIUM - SQUARE POTENTIALS	11-76
	<i>Excursus: Consider vanishing inertia</i>	11-78
11.2	NETWORK-SYSTEMS AND CLOSELY COUPLED CONTROL LOOPS	11-80
11.3	SIMPLIFICATION ACCORDING TO CLASSICAL CONTROL TECHNIQUE: LINEAR GOVERNORS	11-80
11.3.1	<i>Proportional reaction of control</i>	11-81
11.3.2	<i>Integral reaction of control</i>	11-82
11.3.3	<i>Differential reaction of control</i>	11-83
11.3.4	<i>Model-based reaction of Control (Excursus)</i>	11-84
11.4	INTERPRETATION AND CRITICALITY	11-85
<b>12</b>	<b>MODELING A PROJECT</b>	<b>12-87</b>
12.1	THE NETWORK PLAN AS A BASIS	12-87
12.2	SUBSTITUTE MODELS	12-89
12.3	CHARACTERIZATION OF A FULL PROJECT	12-92
12.3.1	<i>Total float</i>	12-92
12.3.2	<i>Free float</i>	12-93
12.3.3	<i>Criticality</i>	12-94
12.3.4	<i>Characterization of the criticality of a project</i>	12-95
	<b>TABLE OF FIGURES</b>	<b>12-96</b>
